Table of Contents

Future Health Trends

Executive Summary 12

The Glycaemic Index	12
Heart Health	13
Wellbeing	14
Daily dosing	15
Low fats to right fats	16
Phood	17
Conclusions	18

Chapter 1 The Glycaemic Index 20

Summary	20
Introduction	20
What is the Glycaemic Index?	21
What is the Glycaemic Load?	21
GI vs. GL	22
Growth drivers behind the GI concept	23
Consumer drivers	23
Obesity	23
Diabetes as a driver of GI	25
GI as a sophistication of the Atkins diet	27
Manufacturer drivers	28
Labeling	28
Highlighting the low GI product tag in marketing	29
Reformulation	30
Regulatory drivers	31
Regulatory support	31
Regulatory inhibitors	32
Rejection of the diet	33
Lead countries	33
Lead categories	35

Meal replacements	37
Bakery and Cereals	38
Snacks	39
Innovation in GI	40
Conclusions	41
Key countries	41
Key categories	42
The future of the GI diet	42

Chapter 2 Heart Health 46

Summary	46
Introduction	46
What is heart health?	47
Actively promoting heart health	47
Reduce the risk of heart health	50
Salt	50
Cholesterol	50
Right fats	51
Growth drivers	52
Consumer drivers	52
Cardiovascular disease	52
Hypertension	54
The ageing population	55
Changing consumer attitudes	56
Manufacturer drivers	56
Reformulation	57
Marketing products as heart healthy	58
Sales of heart health functional foods and drinks	59
Regulatory drivers	60
Lead countries	61
Lead categories	61
Snacks	63
Bakery and cereals	64
Innovations and features of heart health	64
Innovation	66
Innovation in the features of heart healthy products	67
Conclusions	68
Key countries	68
Key categories	69
The future of the heart health trend	69

Chapter 3 Wellbeing and feel good within 72

Summary	72
Introduction	72
What is 'wellbeing and feel good within'?	73
Digestive health	73
Detox	74
Mental wellbeing	74
Energy	75
Immune system	75
Skin health	75
Growth drivers of wellbeing	76
Consumer drivers	76
Digestive health	77
Mental wellbeing	79
Skincare	82
Anti-ageing	85
Consumer attitude of 'you are what you eat'	86
Manufacturer drivers	86
Reformulation	86
Remarketing existing products to highlight the vital wellbeing ingredients	88
The gut health market is not driven primarily by illness	88
Lead countries	89
Lead categories	91
Meal replacements	93
Soft drinks	94
Hot drinks	94
Innovation and trends in the wellbeing trend	95
Innovation	97
Innovation in the sub-trends	98
Conclusions	100
Key countries	101
Key categories	102
The future of the wellbeing trend	102

Chapter 4 Daily Dosing 104

Summary	104
Introduction	104
What is daily dosing?	105
The benefits delivered through daily dosing	106
Types of delivery systems	106
Pouches and sachets	107

The LifeTop straw	107
240ml	108
The Yakult model	108
New innovative packaging	109
Growth drivers	110
Consumer drivers	110
Individualization	110
Personalized nutrition	113
Daily dosing is also about disease prevention	113
Manufacturer drivers	113
Packaging innovations	114
Reformulation of healthy products into daily dose portions	115
Daily doses within other products	117
Lead countries	117
Lead categories	119
Meal replacements	122
Snacks	122
Bakery and cereals	123
Innovation in daily dosing	124
Innovation in formulation	124
Innovation in packaging	126
Conclusion/growth prospects	127
Key countries	127
Key categories	128
The future of daily dosing	129

Chapter 5 Low Fats to Right Fats 132

Summary	132
Introduction	132
What are the right fats?	133
Polyunsaturated fatty acids- Omega-3	133
Trans fats	134
Growth drivers	135
Consumer drivers	135
Heart disease	136
Alzheimer's	136
Arthritis	137
Pregnant women	138
Other conditions	138
Manufacturer drivers	139
Reformulating products	139
Marketing of ingredients	141
Regulatory drivers	142
Omega-3	142

Chapter 7 Conclusions 186

Summary	186
Introduction	187
Key marketing targets	187
Key innovative categories in healthy food and drinks	188
Features of healthy food and drinks that are important to consumers	189
Countries that lead in NPD in healthy food and drinks	191
The most popular health trends now and in 5 years	192
Other healthy food concepts that are likely to develop in the next 5 years	194
Index	195
