

Key Trends in Nutraceutical Food and Drinks

Novel ingredients, new applications and future revenue opportunities

By Mark J Tallon, PhD

 [Table of Contents](#)

Mark J Tallon, PhD

Dr Mark J. Tallon received his Ph.D. in nutritional biochemistry from Southampton University and also holds a first degree in exercise physiology and a Masters degree in nutrition science. He has worked as a key consultant to many companies including Labrada Inc, iSatori Global Laboratories, EAS, Miami Research Associates to name a few. Until recently Dr Tallon was Chief Science Officer of Oxygenix Ltd, a consultancy firm specializing in European, Pan-American and Asian regulatory compliance of dietary supplements. He was co-founder of Cr-Technologies, LLP a raw ingredient company specializing in novel and proprietary nutraceuticals for the cosmetic, dietary and functional food market. He is currently a member of the Institute of Biology and the Nutrition Society of Great Britain and a member of the International Society of Sports Nutrition (ISSN). Through these societies, Dr Tallon is currently registered as a certified biologist and nutritionist. Other affiliations include the Institute of Food Technologists, American Botanical Council, and American College of Nutrition, The Physiological Society and the American Medical Writers Association.

Table of Contents

Key Trends in Nutraceutical Food and Drinks

Executive Summary 12

Weight control	12
Blood sugar	13
Digestive health and allergies	14
Joint and bone health	15
Cognitive health and energy	16
Aging and cosmeceuticals	17
Cardiovascular health: lowering cholesterol and blood pressure	18
Industry survey	19

Chapter 1 Weight control 22

Summary	22
Introduction	22
Obese and overweight epidemiology	23
NPD and innovation	25
Regional analysis	28
Current product overview	30
Current ingredients 31	
Protein isolates	32
Oligofructose	33
Bitter orange	36
Novel ingredient case study – ForsLean and the Sabinsa Corporation 37	
The company	37
The ingredient	37
Proof of efficacy	38
Dosage and delivery form	38
Marketing assessment	38
Future ingredients 40	
Caralluma fimbriata	40
Simmondsia chinensis (jojoba plant ext)	42
Pinoleic acid	43

Conclusions	44
Chapter 2	Blood sugar
	46
Summary	46
Introduction	46
Diabetes epidemiology	47
NPD and innovation	48
Regional analysis	51
Current product overview	53
Current ingredient trends	54
Chromium	54
Cinnamon	56
Glucomannan (amorphophallus konjac)	57
Novel ingredient case study – Cinnulin-PF and Integrity Nutraceuticals	
International	58
The company	58
The ingredient	58
Proof of efficacy	59
Dosage and delivery form	60
Marketing assessment	61
Future ingredients	62
Bitter melon	63
Coffea arabica and chlorogenic acid	65
Lipoic acid (potassium-R-lipoate)	66
Conclusions	67
Chapter 3	Digestive health and allergies
	70
Summary	70
Introduction	70
IBS epidemiology	72
Market value of digestive health food and drinks	73
NPD and innovation	74
Regional analysis	77
Current ingredients	80
Resistant starch	81
Pro, pre and synbiotics	83
Allergen free foods	84
Novel ingredient case study – Beneo Synergy-1 and Orafiti	86
The company	86

The ingredient	86
Dosage and delivery form	88
Marketing assessment	89
Future ingredients	91
Novel prebiotics	91
Isomalto-oligosaccharides (IMO)	91
Soy-oligosaccharides	92
Xylo-oligosaccharides	92
Cranberry	93
Grapefruit + inulin (prebiotics)	95
Conclusions	96

Chapter 4 Joint and bone health 98

Summary	98
Introduction	98
Osteoporosis epidemiology	99
Market value of bone health food and drinks	100
NPD and innovation	101
Regional analysis	105
Current product overview	107
Current ingredients	107
Glucosamine sulfate	108
Chondroitin	110
Methylsulfonylmethane (MSM)	111
Novel ingredient case study – MicroLactin and the Humanetics Corporation	111
The company	111
The ingredient	112
Proof of efficacy	112
Dosage and delivery form	113
Marketing assessment	113
Future ingredients	115
Galactolipids (GOPO)	115
Sodium hyaluronate	118
Sulphoraphane (broccoli extract)	120
Conclusions	121

Chapter 5 Cognitive health and energy 124

Summary	124
Introduction	124

Major depressive disorder epidemiology	126
Market value of energy food and drinks	127
NPD and innovation	128
Regional analysis	131
Current ingredients	133
Caffeine	133
ECGC ((-)-epigallocatechin-3-gallate)	134
Coenzyme Q10 (CoQ10)	136
Novel ingredient case study – Teavigo and DSM Nutritional Products	138
The company	138
The ingredient	138
Proof of efficacy	139
Dosage and delivery form	139
Marketing assessment	140
Future ingredients	142
Creatine	142
Ashwagandha	144
Blueberries	146
Conclusions	148

Chapter 6 Aging and cosmeceuticals 150

Summary	150
Introduction	150
The aging population	151
Market value of oral beauty supplements	152
NPD and innovation	153
Regional analysis	157
Current product overview	159
Current ingredients	160
Coenzyme Q10 (CoQ10)	160
Essential fatty acids	161
Vitamin E	162
Novel ingredient case study – Injuv from Soft Gel Technologies, Inc	164
The company	164
The ingredient	164
Proof of efficacy	165
Dosage and delivery form	166
Marketing/company assessment	166
Future ingredients	168
Pomegranate extract	168
N-acetylglucosamine	168
Quercetin	170

Conclusions		170
Chapter 7	Cardiovascular health: lowering cholesterol and blood pressure	172
Summary		172
Introduction		173
Cardiovascular disease epidemiology		174
Market value of heart health food and drinks		176
NPD and innovation		177
Regional analysis		182
Current product overview		185
Current ingredients		186
Current cholesterol ingredients		186
Oat fiber (beta-glucans)		186
Soy protein		188
Phytosterols (beta-sitosterols)		189
Current blood pressure ingredients		190
Tripeptides (L-valyl-L-prolyl-L-proline and L-isoleucyl-L-prolyl-L-proline)		190
Casein peptide (C12)		192
Lycopene		194
Novel ingredient case study – Reducol and Forbes Medi-Tech Inc		195
The company		195
The ingredient		195
Proof of efficacy		196
Dosage and delivery form		197
Marketing/company assessment		198
Future ingredients		201
Future ingredients in the cholesterol market		201
Glucomannan		201
Pomegranate extract		203
Rice bran oil		204
Future ingredients for the blood pressure market		206
Cinnamon		206
Sesamin lignans		207
L-theanine		209
Conclusions		210
Chapter 8	Industry survey	212
Summary		212

Introduction	213
Contributor bio	213
The survey	215
Key trends in functional food and drinks	215
Ingredients	224
Selection of ingredients for food and drinks	230
Marketing functional ingredients	233
Future ingredients	237

Chapter 9 Appendix 242

Bibliography	242
Index	253
