Table of Contents

The Future of Enterprise Mashups

Executive summary	12
The mashup market	12
The enterprise demand and unmet need	13
Challenges and barriers to mashup market growth	14
The vendor landscape	15
The future of the enterprise mashup market	16
Chapter 1 Introduction	20
Introduction	20
Who is this report for?	21
Research methodology	21
Definitions	22
API (Application Programming Interface)	22
Blogs	22
Cloud computing	22
Mashups	22
RSS (Really Simple Syndication)	22
SaaS (Software as a Service)	22
SOA (Service Oriented Architecture)	23
Web 2.0	23
Widgets	23
Wikis	23
Chapter 2 The mashup market	26
Summary	26
Introduction	27
Market growth and drivers	27
Market size and forecast	27
Market drivers	29

	The big players become involved	29
	Evolving market definition and knowledge	30
	Emerging standards	31
	Increasing uptake of SOA and cloud computing services	31
	The recession	32
Investment in mashups		32
	Parent companies	33
	Venture capital and business angels	33
	Bootstrapping	33
Mashup uptake		34
Current usage		34
	Uptake by organization size	35
	Uptake by vertical market	36
Short-term uptake forecast by non-users		37
	Short-term uptake forecast by organization size	38
	Short-term uptake forecast by vertical market	38
Plans to increase usage		39
Opportunities through SOA		41
The open space		43
Opportunities to fill the space		43
	Market definition	43
	Educating the market	44
	Standards	44
	Availability for all	44
Emerging leaders		45
	Major IT players	45
	Innovators	45
	Non-mashup specific vendors	46
Timeframe		46

Chapter 3 The enterprise demand and unmet need 48

Summary		48
Introduction		49
Business priorities		49
Customer relationship management		51
Business intelligence		52
Business process management		53
Attractiveness of mashups		54
Cost		55
Return on investment		56
Benefits to the bottom line		58
Application needs and partnership opportunities		59
What end-users want from a vendor		59
	Efficiency	60

Cost	60
Reliability	61
Reputation	61
Return on investment	61
Innovation	62
Innovation	62
Security	62
Trusted vendors	62
Partnership strategies	64
Systems integrators	65
SaaS and proprietary software vendors	65
Mashup marketing	66
Partners	66
Web 2.0	66
Seminars and webinars	67
Advertising	67
Trade shows	68
Mashup users	68
BT Broadband Support – speed, scalability and efficiency	68
Cardiff University - efficiency	68
Retail banks – efficiency and security challenges	69
US Defense Intelligence Agency (DIA) – speed, efficiency and security	69
The Center to Promote HealthCare Access – increased efficiency	69

Chapter 4 Challenges and barriers to mashup market growth 72

Summary	72
Introduction	73
The software market	73
Competitors	73
The disruptive potential of mashups	75
The complementary potential of mashups	77
Benefits and risks of mashup usage	78
The CIO perspective	78
CIO and vendor perspective comparison	79
Educating the market	80
Key vendor sales messages	81
Mashups are designed to be user driven	81
Quick and ad hoc assembly	82
Cost	83
Web accessibility	84
Co-existence with SaaS systems	85
Co-existence with legacy systems	87
Technical challenges	88
Availability of web services and APIs	88

Standards to govern widgets	89
Governance, management and support	91
Security	92
Reliability	93
Scalability	94
Market challenges	96
Mashup market immaturity	96
Unproven effects on the bottom line	97
The lack of a leading platform	98
The economic downturn	99
Skills shortages	99
Executive culture and misperceptions	100
The end of the IT manager?	101
Effects on the existing IT framework	101
Mashup drivers	102
Input from the CIO	103
The long tail potential of enterprise mashups	104
How mashups are driven and governed	105

Chapter 5 The vendor landscape 108

Summary	108
Introduction	109
Process and presentation mashup platforms	110
Corizon	110
Background, offering and performance	110
Clients	111
Partners	112
Competitors	112
Strategy	112
DreamFace Interactive	113
Background, offering and performance	113
Clients	114
Partners	114
Competitors	114
Strategy	115
IBM Mashup Center	115
Background, offering and performance	115
Clients	116
Partners	117
Competitors	117
Strategy	117
JackBe	118
Background, offering and performance	118
Clients	118
Partners	119
Competitors	119

	Strategy	120
Microsoft SharePoint		120
	Background, offering and performance	120
	Clients, partners and competition	121
	Strategy	121
Oracle WebCenter Suite		122
	Background, offering and performance	122
	Clients and partners	123
	Strategy	123
Salesforce.com		123
	Background, offering and performance	123
	Clients	124
	Partners	124
	Competitors	125
	Strategy	125
Serena Software		126
	Background, offering and performance	126
	Clients	127
	Partners	127
	Competitors	127
	Strategy	128
WaveMaker		129
	Background, offering and performance	129
	Clients	129
	Partners	130
	Competitors	130
	Strategy	130
Data mashup platforms		132
Convertigo		132
	Background, offering and performance	132
	Clients	133
	Partners	133
	Competitors	133
	Strategy	134
Denodo Technologies		134
	Background, offering and performance	134
	Clients	135
	Partners	135
	Competitors	136
	Strategy	136
Kapow Technologies		137
	Background, offering and performance	137
	Clients	138
	Partners	138
	Competitors	139
	Strategy	139
RatchetSoft		140
	Background, offering and performance	140
	Clients	141
	Partners	141

Competitors	141
Strategy	142

Chapter 6 The future of the enterprise mashup market 146

Summary	146
Introduction	146
Future capabilities	147
More available data	147
Mashups in the cloud	147
Easier and quicker mashups	148
Mobile mashups	149
Enterprise mashups: cool or useful?	149
Looking past the hype	149
Delivering business value	150

Chapter 7 Appendix 153

Tables of data	153
Index	157

List of Figures

Figure 2.1:	Enterprise mashup global market size (\$m), 2008-2013	28
Figure 2.2:	Different types of mashups – data, process and presentation	30
Figure 2.3:	Enterprise mashup market development phases	32
Figure 2.4:	Current mashup usage by organizations (% CIO respondents), 2009	34
Figure 2.5:	Current mashup users by organization size (% CIO respondents), 2009	35
Figure 2.6:	Current mashup users by vertical market (% CIO respondents), 2009	36
Figure 2.7:	Timeframe for non-users planning to adopt mashups	37
Figure 2.8:	Short-term non-user uptake forecast by organization size (% respondents), 2009	38
Figure 2.9:	Short-term non-user uptake forecast by vertical market (% respondents), 2009	39
Figure 2.10:	Current users plan to increase mashup usage in the future	40
Figure 2.11:	SOA platform market forecast (\$m), 2008-2014	42
Figure 3.12:	CIO business priority average ratings	50
Figure 3.13:	CRM as a business priority	51
Figure 3.14:	BI as a business priority	52
Figure 3.15:	BPM as a business priority	53
Figure 3.16:	Attractiveness of mashups to CIOs, average ratings	54
Figure 3.17:	Attractiveness of mashups to CIOs in terms of cost	55
Figure 3.18:	Attractiveness of mashups to CIOs in terms of RoI	57
Figure 3.19:	Attractiveness of mashups to CIOs in terms of benefits to the bottom line	58
Figure 3.20:	CIO survey – What end-users want from a vendor	60
Figure 3.21:	Which type of vendors are trusted by CIOs	63
Figure 3.22:	Popular types of partner for mashup vendors	64
Figure 4.23:	Mashup vendor competitors and partners	75
Figure 4.24:	The disruptive potential of mashups	76
Figure 4.25:	Benefits and risks behind mashups: the CIO perspective	79
Figure 4.26:	Benefits and risks behind mashups: CIO and vendor perspective comparison	80
Figure 4.27:	CIO survey – Mashups being user-driven is a benefit	82
Figure 4.28:	The quick and ad-hoc nature of mashups is a benefit	83
Figure 4.29:	The cost of mashups is a benefit	84
Figure 4.30:	Mashups being web accessible is a benefit	85
Figure 4.31:	CIOs are unsure of the benefits to mashups co-existing with SaaS systems	86
Figure 4.32:	CIOs are unsure of the benefits to mashups co-existing with legacy systems	87
Figure 4.33:	Web services and APIs not always being available is a risk to CIOs	89
Figure 4.34:	Lack of open standards to govern widgets presents a risk to CIOs	90
Figure 4.35:	Mashup governance, management and support presents a risk to CIOs	92
Figure 4.36:	Mashup security presents a risk to CIOs	93
Figure 4.37:	Mashup reliability presents a risk to CIOs	94
Figure 4.38:	CIOs are unsure of the benefits and risks in terms of mashup scalability	95
Figure 4.39:	Non-users are unaware of mashups	97
Figure 4.40:	The benefits of mashups to the bottom line remain largely unknown among users	98
Figure 4.41:	CIOs think that mashup usage should be driven by the end-user	103
Figure 4.42:	Vendors think that mashup usage should involve input from the CIO	104
Figure 4.43:	The long tail potential of enterprise mashups	105
Figure 4.44:	How mashups are driven and governed within an organization	106
Figure 5.45:	Process and presentation mashup platform vendor summary	122
Figure 5.46:	Process and presentation mashup platform vendor summary	131
